

# Satisfied

Leela James

Just clap your hands  
Just clap your hands  
To the beat, y'all  
Come on

If I could really be real with you  
You want some other thing  
I'm feeling all kinda waste  
You know you're giving me lie  
And there's nothing that I can define

Cause when we're rocking  
We're locked in  
Nothing can stop it  
No doubt about it  
Ooh, I'm so into you  
You know what to do

And we're gon make it last all night  
Giving me them good vibes, good vibes, ooh  
Little closer till we get it right, get it right  
Can't stop until we're satisfied, satisfied (satisfied)

Gotta know one thing about me, I say what I mean  
Now, I like what I see, we got the chemistry  
My heart's on fire  
Don't wanna go out from the deep end  
When I want you more than the weekend  
Baby, I can't even lie

Cause when we're rocking  
We're locked in  
Nothing can stop it  
No doubt about it  
Ooh, I'm so into you  
You know what to do

And we're gon make it last all night  
Giving me them good vibes, good vibes  
Little closer till we get it right, get it right  
Can't stop until we're satisfied, satisfied

And we're gon make it last all night  
Giving me them good vibes, good vibes  
Little closer till we get it right, get it right  
Can't stop until we're satisfied, satisfied

(Break it down, c'mon)  
It's something something something something  
Something something about you  
Something about you  
Something about you  
Can't stop can't stop can't stop can't stop  
Thinking about you  
Thinking about you

And we're gon make it la-last all night

Giving me those good vibes  
Little closer till we get it right  
Can't stop until we're satisfied, satisfied

And we're gon make it last all night  
Giving me them good vibes, good vibes  
Little closer till we get it right, get it right  
Can't stop until we're satisfied, satisfied
