

So Far Away

Leela James

Make a believer, please
Show me things I ain't never seen
Make a believer, please
'Cause all I see is trouble in these streets

We've traveled so far
Still, we're so far away
So far away
We've traveled so far
Still, we're so far away

Make me a believer, please
Don't you see this pain and poverty?
'Cause I am mad that no one's listening
Holding me down, down, and I can't even breathe

We've traveled so far
Still, we're so far away
So far, so far away
We've traveled so far
Still so far away
So far away

Traveled so far away

Change gon' come, gon' come some day
Change gon' come, that's what they say
Change gon' come, gon' come some day
What they say

Traveled so far, traveled so far
Still, we're so far away
Oh, we've traveled so far
Still so far away

So far away
Traveled so far away
Traveled so far away
So far, so far
So far, so far
Still, we're so far away
So far, so far away
Far, far away
So far away
So far, so far away
So far away
So far away

Mmh

Change gon' come, gon' come someday
Change gon' come, that's what they say
Change gon' come, gon' come someday
So far away
So far away
