

First Love Fire

Leeland

I remember when all I knew
To do was sing Your name
I remember when all I longed
To do was give You praise
Jesus, light the first love fire in me, again

I wanna fall in, I wanna fall in
I wanna fall in love with You again
Back to the start where
It was all about one thing
I wanna fall in love with You again

And I remember when
I couldn't wait to tell someone
I was lost within the joy
And gratitude for all that You've done
Jesus, light the first love fire in me, again

I wanna fall in, I wanna fall in
I wanna fall in love with You again
Back to the start where
It was all about one thing
I wanna fall in love with You again

With You again

Bring me back to
My first love again, Jesus

Jesus, light the first love fire
Come and be my one desire
Jesus, light the first love fire
Come and be my one desire

Jesus, light the first love fire
Come and be my one desire
Jesus, light the first love fire
Come and be my one desire

I wanna fall in, I wanna fall in
I wanna fall in love with You again
Back to the start where
It was all about one thing
I wanna fall in love with You again

With You again

Back to the start where
It was all about one thing
I wanna fall in love with You again
Back to the start where
It was all about one thing
I wanna fall in love with You again

With You again

Jesus, light the first love fire

Come and be my one desire
Jesus, light the first love fire
Come and be my one desire

Jesus, light the first love fire
Come and be my one desire
Jesus, light the first love fire
Come and be my one desire

Jesus, light the first love fire
Come and be my one desire again

I wanna fall in, I wanna fall in
I wanna fall in love with You again
Back to the start where
It was all about one thing
I wanna fall in love with You again

Back to the start where
It was all about one thing
I wanna fall in love with You again
