

Wellspring

Leeland

All sufficient
Never lacking
Ev'rything we need

We come boldly
We come thirsty
You are all we seek

Oh, Your love is a wellspring
You fill us up with water that never runs dry
There is healing and breakthrough
When we behold You
Jesus, our endless supply
Ooh
You're all we're after
Ooh
You're all that matters now

All consuming
Overflowing
Come wash over us

You take weakness
And redeem it
Father, You're enough

Oh, Your love is a wellspring
You fill us up with water that never runs dry
There is healing and breakthrough
When we behold You
Jesus, our endless supply
Ooh
You're all we're after
Ooh
You're all that matters now

Your love is our wellspring
You never will run dry
And right here and right now
There's resurrecting life

Your love is our wellspring
You never will run dry
And right here and right now
There's resurrecting life

Oh, Your love is a wellspring
You fill us up with water that never runs dry
There is healing and breakthrough
When we behold You
Jesus, our endless supply
Ooh
You're all we're after
Ooh
You're all that matters

Your love is our wellspring

You never will run dry
And right here and right now
There's resurrecting life

Ooh, there's resurrecting life
