

Change

Left Boy

If I could change the world
That's what she said to me
I wouldn't need you to, to take good care of me
I, I'd have you walking by as I'd be walking in
And you'd say, my, that girl is fine
I wish I had her

If I could change the world
That's what she said to me
I wouldn't need you to, to take good care of me
I, I'd have you walking by as I'd be walking in
And you'd say, my, that girl is fine
I wish I had her

Her name is lucila-a
She came from africa
Her dream was to come to europe
And be a superstar-a
She had it all planned out
Until she came around
And then she found what we all did

Yeah, you have to be ill to kill
You have to be dour to be seen under this microscope
You have to be better than me apparently
To make it in this in-in-industry

If I could change the world
That's what she said to me
I wouldn't need you to, to take good care of me
I, I'd have you walking by as I'd be walking in
And you'd say, my, that girl is fine
I wish I had her

If I could change the world
That's what she said to me
I wouldn't need you to, to take good care of me
I, I'd have you walking by as I'd be walking in
And you'd say, my, that girl is fine
I wish I had her
I wish I had her
I wish I had her
I wish I had her

If I could change the world
That's what she said to me
I wouldn't need you to, to take good care of me
I, I'd have you walking by as I'd be walking in
And you'd say, my, that girl is fine

Yeah, you have to be ill to kill
I wish I had her
You have to be dour to be seen under this mic-mic-microscope
I wish I had her
You have to be better, than me
I wish I had her
I wish I had her
I wish I had her
I wish I had her
I wish I had her

You have to be ill to kill
