

She works at the corner store
She just want some lovin', nothin' more
And every day that I come in
You're looking at me like you want to say somethin'
Every day that I stop by
You don't even say hi

Flaunt it, flaunt it
Tell me if you want it
Baby and I'll be on it
Do it, are you on it?
Flaunt it, flaunt it
Tell me if you want it
Baby and I'll be on it

I been thinking what I should say all day
Baby, what's your name?
I got you runnin' through my mind all day
Baby, what's your name?
I got you runnin' through my mind all day

You're lookin' like a Playboy centerfold
Your body's on fire
You know that you're the only one that's in here that
Got me inspired
And if you're looking for a rock star baby
Maybe there's something I can do
'Cause I wrote a couple records on the weekend, girl
And I got one 'bout you

Flaunt it, flaunt it
Tell me if you want it
Baby and I'll be on it
Do it, are you on it?
Flaunt it, flaunt it
Tell me if you want it
Baby and I'll be on it

I been thinking what I should say all day
Baby, what's your name?
I got you runnin' through my mind all day
Baby, what's your name?
I got you runnin' through my mind all day
Baby, what's your name?
I got you runnin' through my mind all day
Baby, what's your name?
I got you runnin' through my mind all day
Baby, what's your name?
