

Dynamite

Left Boy

Tell me what you want
I'll tell you what I want
I'm coming with the bomb
Stayin' up till seven in the morning
I wanna do it all again
I wanna be with you
Do you wanna be with me
We're always somewhere in between
I meet you on the street
Now we're kissing on the cheek
We used to fuck in your Jeep

Right around here
You're so far
I want you near
You're so far
I want you here
I want you here

I'm in sometime on Friday night
I want your kisses on me
I need that dynamite
I want your everything all the time
All the time (Dy-dy-dy-dynamite)

Same time last year
We were one, now we're two
Under the sun, under the moon
You won, when you gonna stop?
When you gonna come?
Back to me, back to us
Looking at the window ridin' the bus
What was all the fuss about?
You know you can't trust me when I'm out
I got my head in the clouds [?]
I'm kissing the stars
I'm moving to Mars
I love you with all your flaws
You never give me reason to pause
I wanna get you out of your drawers
I'm gonna be there
Always gonna take care
I was gonna be the one with the grey hair
I was gonna stay fair (Yeah)

Right around here
You're so far
I want you near
You're so far
I want you here
I want you here

I'm in sometime on Friday night
I want your kisses on me
I need that dynamite
I want your everything all the time
All the time (Dy-dy-dy-dynamite)

(Same time last year)
I'm in sometime (sometime) on Friday night
I want your kisses on me
I need that dynamite
I want your everything
All the time (Dy-dy-dy-dynamite)

Dynamite
Dy-dy-dy-dynamite
Dynamite

I'm in sometime (sometime) on Friday night
I want your kisses on me
I need that dynamite
I want your everything
All the time (Dy-dy-dy-dynamite)

On Friday night
Dy-dy-dynamite
On Friday night
