

Get It Right

Left Boy

Back in L.A., whoop! It's a nice day
Baby, take your top off, come to the right bay
I know what your friends say, but they don't know your appeal
Just gimme one day, I teach 'em girls how to chill

'Cause it's 420 24/7 where I'm at, hun
Cruising down sunset, lighting up a fat one
Let's make love, I never wanna fight
Baby, we gotta shop, we should get it right

Get it right, all night - from the dark to the light
From the back to the middle to the front, get high!
Li-li-li-Light it up, rai-rai-rai-rai-raise that cup!
P-P-Put your motherfucking hands up!

I know what you want, baby
I'mma give it to you real good
B-B-B-B-Baby, I'mma give it to you g-g-good, ah
I know what you want, baby
I'mma give it to you real good
B-B-B-B-Baby, I'mma give it to you good, good

It looks like I'm about to get in trouble here
Here, bartender make it double, whoop!
Double-decker-tourbus, meet me on the top-floor
You know the song baby, trying to get my top-score
'Cause I like your skinny-jeans better, when they're laying on the ground
And your Kashmir sweater's nowhere to be found
I'mma be around - maybe not as often as you like
But I think we vibed girl, we should get it right

I just wanna do you real good
You make me feel good - baby, let me get it right
To the edge of the night, to the light - I'll make you feel hyped
Baby, we should get it right

Get it right, all night - from the dark to the light
From the back to the middle to the front, get high!
Li-li-li-Light it up, rai-rai-rai-rai-raise that cup!
P-P-Put your motherfucking hands up!

I know what you want, baby
I'mma give it to you real good
B-B-B-B-Baby, I'mma give it to you g-g-good, ah
I know what you want, baby
I'mma give it to you real good
B-B-B-B-Baby, I'mma give it to you real good

Baby, baby, real good
Baby - I know what you want, baby
I'mma give it to you real good

Get it right, all night - from the dark to the light
From the back to the middle to the front, get high!
Li-li-li-Light it up, rai-rai-rai-rai-raise that cup!
Put your motherfucking hands up!
Get it right, all night - from the dark to the light

From the back to the middle to the front, get high!
Li-li-li-Light it up, rai-rai-rai-rai-raise that cup!
Put your motherfucking hands right!

Get it right!
