Outro

Left Boy

Yo I did it on my own
Every night till the fucking day break
I'm laying in my bed, wide awake
Goin': "when's it gonna go right?
Why's it always going wrong?"

I've been waiting on this for way too long
Eh, I've been around this track in my day
Eh, I see them haters I got one thing to say
Fuck y'all, eh
Eh, I've been around this track in my day
Eh, I see them haters I got one thing to say

Fuck y'all
Fuck y'all
Fuck y'all
Fuck y'all

One step away from the edge
One breath away from the end
I swear to God, I won't let nothing stand in my way
I'mma do what I do until I see the day
I'mma get what I want, I'mma take what I need
You can keep your fucking luck, I was born to succeed

Fuck your weed, fuck your drugs, fuck anything but love
Fuck pennies for the poor and popping bottles at the club (fuck y'all)
Fuck your homophobic hip hop, piece of shit mc's
Nothing but an asshole, diamond-studded Jesus piece
It's just my piece of mind, you can't stop the fucking time
I stay ahead of it, the rest of y'all can stand in line

Fuck y'all
Fuck y'all
Fuck y'all
Fuck y'all
