

## Same Way

Left Boy

I feel the same way about you  
We're both going the same way  
This can't be true  
Liquor dripping of my lips  
Cigarette burns on my wrist  
Push to the sweat?  
Steps on my shoes  
Still felt like it was just us two  
The light goes out  
The music stops  
You grab my hand  
And the beat drops

Same way about you  
We're both going the same way  
This can't be true  
Liquor dripping of my lips  
Cigarette burns on my wrist  
Push to the sweat?  
Steps on my shoes  
Still felt like it was just us two  
The light goes out  
The music stops  
You grab my hand  
And the beat drops

Same way  
We're both going the same way  
Same way  
We're both going the same way  
This can't be true  
Liquor dripping of my lips  
Cigarette burns on my wrist  
The light goes out  
The music stops  
You grab my hand  
And the beat drops
