

SO FAST

Left Boy

So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing

So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing

I'm feeling good, she's got the goods
I'm in the mood, what's under the hood?
Ride through the night, you and me baby
I'm catching a vibe, you're driving me crazy, crazy

You make me feel like I'm in the 80s, 80s
Got you going up and down like baby, maybe, maybe
This is what we've been missing on lately, lately

On God Jesus Christ, Lord have mercy
Need your advice
I'm in the Diablo riding down to the bottom
I got my foot on the throttle and I just can't stop

So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing

So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing

And I just can't stop
Show me what you're made of
I need you alone with me
Some kind of real love
Something just takes over me

700 million miles an hour, these streets I devour
Lights flashing like I'm passing through a thousand dance floors at full power
Be nice to the cowards, everybody acts so sweet when they sour
Moving downwards, I move on the third axis

I've had practice, most y'all inactive
Looking backwards, rolling backwoods,
I made it out, love made change come about
Always did it all for the clout, the respect I was offset, now I'm on route

Show me what your made of
I need you alone with me
Some kind of real love
Something just takes over me

So fast, so fast, I'm racing

So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing

So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing
So fast, so fast, I'm racing
