

Sweet Emotions

Left Boy

She's a woman that's on your mind
She's a woman that takes her time
She's a woman that's on your mind
She's a woman that takes her time

Yea, yea. I can't just let her die
I know I got to do it. I got to give it a try
So I flew into the city of angels to beat the time
We shot a video in the desert to get it right
You ho, making me feel alive
Racing down the street with nothing but sex drive
She said it was the best weekend of her life:
Great sex, friends, weed and getting high
Yeah I fucked up, I got caught up in bullshit in last touch
She said: "Getting with my best friend. - That sucks."
But I love her and I need her

I said: "I can't wait." She says: "It's too late
You gotta do the time, that it take-takes
And if you really love me, then you will wait-wait
Because you put me through too much heart break-break."

I said: "I can't wait." She says: "It's too late
You gotta do the time, that it take-takes
And if you really love me, then you will wait-wait
Because you put me through too much heart break-break."

She's a woman that's on my mind
She's a woman that takes my time
She's a woman that's on my mind
She's a woman that's on my mind

Imma be the man now, yeah you just wait and see
Imma be the daddy that he needs me to be
Imma write the hits, that will pay for the degree
And I'll never put a bullshit in front of family
That's a promise, that I am never gonna break
Cause I'm awake now and I never wanna take
It back to where I was (was), doing what I does
Oh no with a couple of bitches down at the clubs
Yeah I see it different now
She says: "It's been four days and you're different how?"
Ok true right now I can't prove it to you, but

I just can't wait. She says: "It's too late
You gotta do the time, that it take-takes
And if you really love me, then you will wait-wait
Because you put me through too much heart break-break."

Something about us baby, I just wanna be with you
There's this feeling' that you give me, there's no other girl but you
And I know that it's love, yeah I know that it's love, you're all I think of
I need you in my life baby, cause I can never get enough (of you and me)
You and me, (of you and me), you and me
(Of you and me), you-you-you and me
Yeah nah nanana-nananana

(And I feel vibrations
With all your expectations
Baby, I don't have no fear.)
