

Thousand Miles

Left Boy

Is this what you want?
She's moving out, I'm moving on
I'll come to you, you'll come to me
If that's what you want, she's history
We'll make it work, you know it's true
If that's what you want that's what we can do
Cause I think of you when I'm with her
The last few days my life's been a blur
Cause you said

I need you, I miss you and now I wonder

You and me were real - real
We can go anywhere; London, Brazil
They say I got skill, maybe I'll make a mill
Baby, I'll get you everything you wanted, what's the deal?
I know I'm tied up but that knot ain't made of steel
That girl's a sweetheart but that love ain't nothing real
I'm just saying if you feel how I feel then it's dope
And I'll climb up that wall if you toss me the rope
Cause I

I need you, I miss you and now I wonder-r-r-r
If I could fall into the sky
Do you think time would pass me by
Cause you know I'd walk a thousand miles
If I could just see you-u-u-u tonight

Look I could live a lie with this other girl
Or you and I could be the truth like a Dylan song
I'm telling you cause you telling me that you've got feelings for me
Got me thinking I got feelings too
But its true, I do
I'm done with the (fucking games)
I leave it all behind (up in flames)
Just call my name, I'll be on the next plane
You don't need to explain nothing (sounds lame)
But if I were to talk to you today
Even if you didn't wanna hear what I would say
The second that I came across your face
Was the same second that I knew you'd never leave this place
In my head, in my soul, in my heart
I'll be sitting in my room thinking how it fell apart
So if there's any truth to anything you've said
Then take one step my way, let's break bread
