

Vampire

Left Boy

I got you walkin' in at night
You showin' up just like a vampire
I get those goosebumps every time
My heart is burnin' like a campfire

Every time you pop up in my life
This drug flows from my mind
Every time you hit my line

Fucked up
Every time you pop up in my life
This drug flows from my mind
Every time you hit my line

Here comes a girl with the ice cold touch
I give you everything I got, but you ask too much
She's switching gears like a tap dancer on the clutch
Two hundred miles an hour wasn't fast enough

And there's no question, baby
That you're givin' me the creeps
You're on the corner in the city
Hangin' with your peeps

And it's because of you
I keep my lights on when I sleep
I didn't wanna have to tell ya
But girl, you fuckin' crazy
Creepin' outside my window

I got you walkin' in at night
You showin' up just like a vampire
I get those goosebumps every time
My heart is burnin' like a campfire

Every time you pop up in my life
This drug flows from my mind
Every time you hit my line

Fucked up
Every time you pop up in my life
This drug flows from my mind
Every time you hit my line

You've been a freak ever since I can remember
You bit me on the neck on the day that I met ya
(What the hell?) You messin' up my white cell
Baby, can't you tell?
This shit don't ever gon' sell (This from 2012)

You got me in a rage, I'm fuckin' up some commas
Got the moonlight in my face, to my base
Why you always in my face, girl?
Can I get a little space?

And there's no question, baby
That you're givin' me the creeps

You're on the corner in the city
Hangin' with your peeps

And it's because of you
I keep my lights on when I sleep
I didn't wanna have to tell ya
But girl, you fuckin' crazy
Creepin' outside my window

I got you walkin' in at night
You showin' up just like a vampire
I get those goosebumps every time
My heart is burnin' like a campfire

Every time you pop up in my life
This drug flows from my mind
Every time you hit my line

Fucked up
Every time you pop up in my life
This drug flows from my mind
Every time you hit my line

Fucked up
Every time you pop up in my life
(I got you walkin' in at night)
This drug flows from my mind
Every time you hit my line
(You showin' up just like a vampire)

Every time you pop up in my life
This drug flows from my mind
Every time you hit my line
(My heart is burnin' like a campfire)
