

Burden

Left To Suffer

I'm fed up

Your vile ways speak volumes on your life
And now I've had enough
You fucking parasite
It's lit inside of me
I'm bursting at the seams
And you were so aware

Coward
You cower away from the truth
Panic
It's sad to see you die

A God damn waste of time
A fucking parasite
Who bled us dry with intuition and your bullshit lies
A God damn waste of time
A fucking parasite
Who bled us dry with intuition for a bullshit price

I fucking see you
Darkness creeping in and it's consuming me
And now I feel alive with this knife in my hand
Looking back I can never seem to forget
When all you do is feed my malice and desire

The world has opened for a rapture of the weakened race

You mother fucker

Your vile ways speak volumes on your life
And now I've had enough
You fucking parasite
It's lit inside of me
I'm bursting at the seams
And you were so aware
No way out

Blood begets blood I can feel you ripping away of what's left of me
Hate begets hate I can feel it eating me alive
Blood begets blood serrated, suffering my soul for what it's worth
Hate begets hate I hope you feel it burning you alive

I'm over all your lies
The cancer from your tongue, I smell shit pouring out
It's time for you to die
You fucking bitch
And I could let you pass but I have had enough

Repulsive waste of space, your carcass now lies in a better place. Cowardice
. Weak. Deteriorate with the maggots 6ft deep
