Noah

Left To Suffer

Can't see the shore
Can't see the shore
The world's gone overboard
Some people never get to see the light of day
A flood is overdue so pray for rain

Yea

Noah

If you had a second chance now would you take it?
Or would you stand on the edge cause you can't take it. Ugh
Cause you know that we'd find a way to sink
Did you ever stop and take the time to fucking think

Noah drown out the voices
Noah drown out the voices

If you had to do it all over again
I bet you wouldn't think twice, you wouldn't think
Together drowning in a sea of our sin
Cause we didn't think twice, we didn't think

Noah, Noah drown out the voices
Noah, Noah drown out the voices

So jump ship
Cause we found a way to sink this
Holes in the hull
God save us all
Thrash in the waves
No one to save us
Cold to the core, do you want more

Let's break it down
First you try to swim and then you'll drown
If no one's there to hear you do you even make a sound

Can't see the shore
Can't see the shore
The worlds gone overboard
Some people never get to see the light of day
A flood is overdue so pray for rain

You'd leave us all to suffer

Noah Noah, drown out the voices
Noah Noah, drown out the voices

If you had to do it all over again
I bet you wouldn't think twice, you wouldn't think
Together drowning in a sea of our sin
Cause you didn't twice, we didn't think

Noah, Noah drown out the voices
Noah, Noah drown out the voices
Noah, drown out the voices

Noah, drown out the voices
