

## You Don't Have to Be Present to Win

Lefty Frizzell

My chances are greater I thought with him gone  
She'll forget him and our love will move along  
But one kiss told me I'm still just a friend  
No, you don't have to be present to win

He stamped his memory it seems on your heart  
A memory that's over love when you're apart  
Just a thief in the night is all I've ever been  
No, you don't have to be present to win

I've been taking advantage of your loneliness  
Your arms were reaching but for someone you've missed  
If you don't until eternity doesn't have to worry till then  
No, you don't have to be present to win

He stamped his memory it seems on your heart  
A memory that's over love when you're apart  
Just a thief in the night is all I've ever been  
No, you don't have to be present to win
