

# Chimes of Flagellation

## Legion of the Damned

Through time and space  
From outer worlds  
Wickedness comes with a begging please  
Transforming the I

I uncaged  
From our crooked minds  
Cold blood refuelled  
Morals paralysed  
Lying chained inside our masked regime  
Minds withdrawn into obscurity  
It's like were dancing in this house of death  
Cruel hands enfolding round our velvet necks

Cold mistress' repent us  
Were soldiers of madness  
Allegiance determent  
Like shell-shock perverted  
And now  
There'll never be no single soul  
No living flesh we can't control  
Enslaved all crawl to our disdain  
Submit yourselves under our reign

In ecstasy  
And under will  
Enslave us

No losing grip  
In shibari's web  
You're bound to feel  
Beyond sensational realms  
You lie chained inside our masked regime  
Mind withdrawn into obscurity  
Now kiss the fear I know you can't deny  
The joyous shining through your blindfold eyes

In ghastly spheres adjust  
Bounded to the thrust  
Pulsate with vicious lust  
As I  
Demean and glorify  
Your flesh a kingdom mine  
A body temple crowned under flagellating chimes like prayers unto no god at all  
In commitment's fire we burn like words from crooked scrolls  
Untamed desire like moaning rabid dogs

Under flagellating chimes like prayers unto no god at all  
Psalms of perversion in chants they reverse  
I hear your cries fierce demanding cries  
We burn like words from crooked scrolls  
Untamed fucking desire like moaning rabid dogs  
Under flagellating chimes like prayers unto no god at all  
Psalms of perversion in chants they reverse  
I hear your cries sweet yearning cries

No losing grip  
In shibari's web  
You're bound to feel beyond sensational realms  
You lie chained inside our masked regime  
Mind withdrawn into obscurity  
Now kiss the fear I know you can't deny  
The joyous shining through your blindfold eyes

In ecstasy  
And under will  
Enslave us  
Through time and space  
From outer worlds  
Wickedness comes with a begging please  
Crawl to me
