

Priest Hunt

Legion of the Damned

From the pits of malevolence
Bestial destruction awaits
Destroyers of the holy cross

Evoked by eternal hate
Legions of devastation
Holding their bloody sway
Riders in the northern night
The night, it goes their way
Massacre of the deceiving priests
Burning for all of their lies
Butchering the inquisitors
The righteous ones shall die
No absolution
For the priestly flock
Torture and death to the heretics
Embraced by the darkest shadows

Dark hunt (Dark hunt)
Priest hunt (Priest hunt)
Blood for the beast
Feast on the priest

Horrifying dreamlike visions
Leaving me wide awake
Hearing the tormented screams
Of those who burned at the stake
Witness the inquisitors
Interrogate on the rack
Sanctified theatre of cruelty
Channels anti-Christian wrath

Dark hunt (Dark hunt)
Priest hunt (Priest hunt)
Blood for the beast
Feast on the priest
Dark hunt (Dark hunt)
Priest hunt (Priest hunt)
Blood for the beast
Feast on the priest

O priest here begging on your knees
Soon on your altar you will bleed
Jehovah's acolyte of blind zealotry
I love to slaughter you with wrathful ease

Preacher, soon you are about to die
We are the devil's inquisition
Death satisfies our demands
From the mouth of Belial
Uttered words of irreverence
The hunt will ride again
Dark procession for the damned
Profane and iconoclastic
Denizens of the infernal land
Pagan congregations gathering
All bearing the devil's mark

Riding out with blasphemous fury
Descend with unholy rage

Hunt for the priest
Blood for the beast
Hunt for the priest
Blood for the beast
Hunt for the priest
Blood for the beast
Hunt for the priest
Blood for the beast

After centuries of church oppression
Tonight we avenge the condemned
Nocturnal sacrifice they desire
The priest hunt shall commence
Pagan retribution of the condemned
For the witches and heretics burned
Infernal visions of priestly bleeding
Savage sacrificial wrath
