

Burning Up

Leigh-Anne

You're hotting all my senses and I can't deny it
It's giving spark and tension, you electrify me
I know I'm hard to read but you spiritually speak to me
You bring me inner peace, don't think I've ever felt this free

Feel like I'm running, I'm running into the fire
Got me chasing your love and I'll never tire
You turn up the heat on my desire
And now I'm burning up for you
You be the flame and I'll be the lighter
All through my body, taking me higher
You turn up the heat on my desire
And now I'm burning up for you

I can't resist temptation when you kiss me softly
You match my vibration, the way you energize me
I know I'm hard to read, but you spiritually speak to me
You bring me inner peace, don't think I ever felt this free

Feel like I'm running, I'm running into the fire
Got me chasing your love and I'll never tire
You turn up the heat on my desire
And now I'm burning up for you
You be the flame and I'll be the lighter
All through my body, taking me higher
You turn up the heat on my desire
And now I'm burning up for you

You, you
I'm burnin' up for you
You, you
I'm burnin' up for you
You, you
I'm burnin' up for you
You turn up the heat and my desire
And now I'm burnin' up for you

Feel like I'm running, I'm running into the fire
Got me chasing your love and I'll never tire
You turn up the heat on my desire
And now I'm burning up for you
You be the flame and I'll be the lighter
All through my body, taking me higher
You turn up the heat on my desire
And now I'm burning up for you
