Leigh-Anne

See me standing, I'm
Right in front of you
Trying and it's feeling like a no win game now
I'm pushing through

Tired and you got me feeling sorry, not sorry
'Bout the way that I'm coming in
You can put it all on me
So when you see me telling my story
The way that I want to, yeah
You can take it all or leave

You can't deny this light on me
I'm gonna fly tonight, I'm free

And I'ma keep it G
With every breath that's in my lungs
And nothing's gonna keep me in the dark, I'ma reach the sun
It's like that, I'm moving like that
Baby, I could lose a mil and I'd make it right back, yeah
It's like that, baby, it's like that
And what's the point of living if you don't fight back, yeah

When you see the sleeping monsters creeping in the night
If you need to wipe ya nose and don't you cry
It's a evil life and evil people lie
Read the signs, read the signs

You can't deny this light on me
I'm gonna fly tonight, I'm free

And I'ma keep it G
With every breath that's in my lungs
And nothing's gonna keep me in the dark, I'ma reach the sun
It's like that, I'm moving like that
Baby, I could lose a mil and I'd make it right back, yeah
It's like that, baby, it's like that
And what's the point of living if you don't fight back, yeah

I never lose, boy, you shoulda knew that
Gimme the lighter and move back, yeah
I never lose, boy, you shoulda knew that
Shoulda knew that, shoulda knew that
I never lose, boy, you shoulda knew that
Gimme the lighter and move back, yeah
I never lose, boy, you shoulda knew that
Shoulda knew that, shoulda knew that

And I'ma keep it G
With every breath that's in my lungs
And nothing's gonna keep me in the dark, I'ma reach the sun
Nothing can keep me down
