

Heaven

Leigh-Anne

Feeling so high, I don't even smoke
If it ain't for me, then I'ma let it blow
I been up and down, going through the motions
Couldn't take love 'cause my heart was frozen
Running so fast that I hit a wall
Had to bounce back, now I'm on a roll
Never been the one to say I told you so
If you don't know then now you know

This is the closest
I ever, ever felt to heaven
When you're here
This is the closest
I ever, ever felt to heaven

All I need's right here
Yeah, yeah, yeah
All I need's right here

Tryna find time in my schedule
Need a quick break, yeah, I gotta breathe
My baby went and got me this ring
Do it for my baby, he's my everything
Feel like I could walk on water
Whenever I'm looking at my daughters
Trying to get my shit in order
Something's changed

This is the closest
I ever, ever felt to heaven
When you're here
This is the closest
I ever, ever felt to heaven
All I need's right here

Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
Yeah, yeah, yeah
All I need's right here
