

You ARE a star

Leigh-Anne

You want me tell you something?
You are stronger
You're determined, girl
That's how God make you
You know I remember first when I
When you said you are a star
That's the way you were thinking of getting into the X-Factor
You say you are a star
I am a star
Right? So you know it's your determination
This is what I have to tell you, love
We are strong in whatever we are doing
I'm strong and we work hard for what we want
All my fathers coming down and my mother
They are working people and people respect it, you know
Very much, we's not a pushover
We doesn't fall
We only slide and we always get up again
And I hope that you light will carry the fire
Of the Pinnock straight to generation...
