

High Is Better

Leigh Nash

We can't afford the therapy we need
So we rely on cheap wine and decent weed
We got married 7 years ago
Somehow now we're strangers we don't even know
We barely say hello

Hello's good but high is better
Let's go up in smoke together
You don't cheat and I don't lie
We're not in the mood to fight
Let's get the wine out on the table
You're no drunk and I'm not unstable
We can't stay this low forever
Hello's good but high is better

We got into a good one Friday night
Still not speaking and I'm not looking for another fight
After all the smoke has cleared I know
We'll just light another
And burn it slow
No need for hello

Hello's good but high is better
Let's go up in smoke together
You don't cheat and I don't lie
We're not in the mood to fight
Let's get the wine out on the table
You're no drunk and I'm not unstable
We can't stay this low forever
Hello's good but high is better

I won't turn my back on you
We'll just roll an olive branch or two
It's what we do

Hello's good but high is better
Let's go up in smoke together
You don't cheat and I don't lie
We're not in the mood to fight
Let's get the wine out on the table
You're no drunk and I'm not unstable
We can't stay this low forever
Hello's good but high is better
