I'm tryna make out with the drummer  
But not before I make him chase  
Turn him to a hunter  
And if he wack, hit him with that Google voice number  
I repeat, no waves, I ride thunder  
Low key, I like to make them wonder, uh

I wake up with it in my cup  
They all want to take her down, good luck  
Stay mad, I ain't never letting up  
450 in the oven heating up
