

Don't Do It

Leikeli47

Drum god on the stutter
We made it out the gutter
While you riding waves, I'm riding thunder
Surfboard, cowabunga
A bitch had to declutter
Make a woman wonder
Had I did this shit last summer
I woulda gave that other nigga my number
47 on the come up
But I dare a nigga to run up
You know I keep a blade, to cut her
And I don't mind scuffin' up my butters

I really don't care if you like me
Don't get your jaw checked like some damn I.D.
I chew the beat up like a chicken roti
Another like me that's unlikely

Don't do it
Did you hear me nigga?
Don't do it
I'ma say it again one time
Don't do it
Don't do it

Dem pickney dem watch mi
Then tell dem send come
From morning dem chat me
And dem still na done
I just take them longer on a run, uh
Love me more than your mumma, uh
And ya poppa fadda, uh
Check ya right, say me vex
(Steups) Let me get back to do check
Now mi outta order
Don't take me out my zone, man, that's a horror
It's like a sheep to the slaughter
And we could give a fuck who in your corner (Don't)

I really don't care if you like me (Don't)
Don't get your jaw checked like some damn I.D. (Don't)
I chew the beat up like a chicken roti (Don't)
Another like me that's unlikely

Don't do it
Better watch out now, calm down or don't do it
We could give a fuck who you 'round
Don't do it
Sit down or get sat down
Or don't do it
You can come on down to the town
But don't do it

I really don't care if you like me (Don't)
Don't get your jaw checked like some damn I.D. (Don't)
I chew the beat up like a chicken roti (Don't)
Another like me that's unlikely

Don't do it
Did you hear me nigga?
Don't do it
I'ma say it again one time
Don't do it
