

Hoyt And Schermerhorn

Leikeli47

In the dark, on the train, whisperin', "I love you"
Can't nobody see the smile upon my face
Pullin' up to my stop and you tell me "don't move"
You ask me can I call in sick today
The doors close, then I sit in your lap and kiss you
You tell me my voice is medicine to your soul
The brakes make us move back and forth just like we're dancing
It's nothin' like love on the train when the doors close

Oh, we're riding all the way
Downtown or uptown
You got me all the way
As long as you're down
Ride with me all the way
This train is love-bound
Ride with me all
Oh, all, all the way

Lookin' out the window, the lights are flashin'
Tunnel vision, all I can see is you
Passengers congregatin' for our union, uh
I'm hoping that they have what we have too

Oh, we're riding all the way
Downtown or uptown
You got me all the way
As long as you're down
Ride with me all the way
This train is love-bound
Ride with me all
Oh, all, all the way

Uh
Never thought in my dreams that I would meet the one
You can count on me if your friends ever run
[?] take this team to number one
My homie, my lover, my best friend, my son
Shine on them, baby, in your Calvin Klein on 'em
Style on 'em, bae, you got a couple miles on 'em
While they play catch up, we playin' dress-up
In the Maldives, listenin' to the Killer Bees
Hair blowin' the breeze, thinkin' back on memories
When I would take the E to my job I had in Queens
You would always meet me at 61st with the weed
And I cherish the ground we on right now
You always held me down, I loved our meetings in the hallway
In my old building, I lived right across from RJ
Trust you like I trust Mike, fourth-quarter in the pink
So heavy, my right now will forever be my always
We ridin' all the way

Oh, we're riding all the way
Downtown or uptown
You got me all the way
(Trust you like I trust Mike, fourth-quarter in the pink)
As long as you're down
(So heavy, my right now will forever be my always)

Ride with me all the way (We ridin' all the way)
This train is love-bound
Ride with me all
Oh, all, all the way
