

## Stay

Leith Ross

Oh, how I love you  
And if I could know you  
More than I know you now  
Then I could know somehow  
How to love you  
And how I could know you  
Better and better

Oh, how I need you  
And if I could see you  
More than I see you now  
Then I could see somehow  
How to need you  
To let you need me too  
Forever and ever

My bread is your bread  
And my water's your water  
I couldn't be fed  
And not share in this altar  
'Cause I cannot be  
Human alone

Come over  
I wanna know what you thought  
Unload her  
I wanna see what you've got  
Baby, on the way down  
I'm gonna hold you up  
And maybe on the way out  
We can dissolve as one

When you let me feel it  
When you caught me bleeding  
Choosing to believe it  
That you're gonna stay  
You're gonna stay  
That you're gonna stay  
Stay, stay, stay, stay
