

## To Me

Leith Ross

If you said "speak", then I'd spill  
If you said "stop", I'd be still  
If you jump, then I jump  
Down their throat and I go for the kill

When you say "leave", I run  
You said, "Forgive me", I said, "You did nothing wrong"  
'Cause when you lie, then I lie  
On your back while you sleep to the sound of a gun

And I know that you know what I mean  
So at what point of you knowing  
Are you just controlling me?  
If I'd do anything for you, that means  
You know you could do anything to me

You love to watch me dance  
Reshaping till you like me again  
But the eggshells all break and thin ice always caves  
And you just shake your head

You put a picture up  
And it didn't feel like love  
Just a reminder of contractual debt and luck

And I know that you know what I mean  
So at what point of you knowing  
Are you just controlling me?  
If I'd do anything for you, that means  
You know you could do anything

Do you know how humiliating it can be?  
To beg for forgiveness that you shouldn't need?  
I begged for forgiveness that I didn't need  
I begged for forgiveness that I didn't need  
I begged for forgiveness that I didn't need  
I begged for forgiveness
