

Control

Lemâitre

I got two problems I can't seem to solve
They're not in my control, I'm taking control
I'm on my last lap, I'm feeling the burn
I don't know where to go
My body's taking control of me now

My head is spinning
Can't watch my back unless I'm spinning
Can't see what's next unless I'm spinning
Can't watch my back unless I'm spinning for your love
I'm spinning for your love

I got two millions on my bucket list
They're not in my control
But I'm taking control of it
There is an empty space inside my soul
I can't fill that hole
At least I'm in control of it all

My head is spinning
Can't watch my back unless I'm spinning
Can't see what's next unless I'm spinning
Can't watch my back unless I'm spinning for your love
I'm spinning for your love

I got two billion neurons in my head
I can't make them connect
They can't keep my head in check
I've got an impulse saying, "Fight or fly"
Don't know which one is right
Guess I'm taking the fight with them now

My head is spinning
Can't watch my back unless I'm spinning
Can't see what's next unless I'm spinning
Can't watch my back unless I'm spinning for your love
I'm spinning for your love

Oh, I'm spinning for your love
And, ooh, spin out of control
