

Day Two

Lemâitre

Looking back without a fear
On the start of a new year
I've been looking for something that can help me
Laying down
You saw stars
Saw the planets in making
Never doubted for a second

We're gonna make it
Why hesitate when there's nothing to lose?
Don't you see it yet?
Let us keep on going
Gonna get there one day

Waking up
Look up the news
Read a headline you choose
You always listen to what you want to
Watching people come and go
But you better
You know
Don't rush 'cause you know that time will show

Climb on top
Enjoy the view
And see yourself in the news
Can't win if you're not prepared to lose
Laying down you're seeing stars
Trace the first steps on Mars
Don't doubt it for a second

We're gonna make it
Why hesitate when there's nothing to lose?
Don't you see it yet?
Let us keep on going
Gonna get there one day

Waking up in dirty shoes
Do a dance to the blues
Nothing good ever comes to those who snooze
Laying down you're seeing stars
I'm scared by high flying cars
Don't doubt that you'll be way up
On top
You'll see what you've got to lose

We're gonna make it
Why hesitate when there's nothing to lose?
Don't you see it yet?
Let us keep on going
Go...

We're gonna make it
Why hesitate when there's nothing to lose?
Don't you see it yet?
Let us keep on going
We're gonna make it

Why hesitate when there's nothing to lose?
Don't you see it yet?
Let us keep on going
Gonna get there one day
