

# Forever

Lemâitre

If I could let go I would never  
Never let you slip  
Away from my minds grip

If I lost all I ever worked for  
And everything I know  
I would still hold on to you

I want to make it better  
But only if you'll stay  
We can be forever...

Forever...  
Forever...  
Forever...

If you can't find  
What you're looking for  
I want to help you find it  
Don't leave me on your floor

All you have to do is ask me  
Do you want me anymore  
I'm standing at your door

I want to make it better  
But only if you'll stay  
We can be forever

I want to make it better  
But only if you'll stay  
We can be forever...

Forever...  
Forever...  
Forever...
