

Haze

Lemâitre

We were so long ago
I got my money and I'm leaving on a plane
Feel my heartbeat race like a river
I've been so lost, alone
When I'm with you, I feel like home, I wanna say
Say I can't leave, so keep me forever

Can't let you go, can't stay away
I need you, need you
High on your love, I'm high all day
You and me were a beautiful haze, haze
You and me were a beautiful

We were so different
I was the morning light and you were dark as night
But together, we made a shadow
Memories back to life
It's all repeating when I look into your eyes
You know me like no other

Can't let you go, can't stay away
I need you, need you
High on your love, I'm high all day
You and me were a beautiful haze, haze
You and me were a beautiful

Haze, haze
You and me were a beautiful haze, haze
You and me were a beautiful haze, haze
You and me were a beautiful haze, haze
