

Keep Close

Lemâitre

I live a few blocks below, a neighbourhood I left for good
These pumps are full, because I'm roped to my end
And it feels so close, and it feels so close
Let's go see what s in store for sale please come with me
Gotta find some way to be, far away with company
Let's go see what s in store for sale please come with me
Gotta find some way to be, far away

Light peeps of nothing new
Lots of nights it scares a few
I said I'm right running round' this room

I probably spoke too soon

Let's go see what s in store for sale please come with me
Gotta find some way to be, far away with company
Let's go see what's in store for sale please come with me
Gotta find some way to be, far away
Took me, far away
