

## Pixel Heart

Lemâitre

Is there anyone out there  
By myself in my room  
And I blocked out the lights with curtains  
To forget about

Forgot about sunlight  
Haven't seen it for days  
I think there's a cloud above me  
Covering me so it's time for you to

Do your part  
And break my pixel heart  
Do your part  
And break my pixel heart

Do your part  
And break my pixel heart  
Do your part  
And break my pixel heart

Do your part  
And break my pixel heart  
Do your part  
And break my pixel heart

I've been meaning to call you  
But will you answer the phone  
You're probably out with your friends  
While I'm here on my own

Do your part  
And break my pixel heart  
Do your part  
And break my pixel heart

Do your part  
And break my pixel heart  
Do your part  
And break my pixel heart

Do your part  
And break my pixel heart  
Do your part  
And break my pixel heart
