

Sceptics

Lemâitre

Please, sit down
Take your time
Cause time's all
Time's all that's left
There's no matter when all is gone
Time stops for no one
Can't trust my senses no more
I'm skeptic
Always doubting what it is in front of me
Epileptic
Allways breaking down and I say why believe

Earth revolves around the moon
The sun's slowed down by noon
Let me convince you someday
This is all in my mind
It's all in my mind
It's all in my mind
It's all in my mind

Please, sit down
Take your time
Cause time's all
Time's all that's left
There's no matter, all is gone
Time stops for no one
