

Sparrow

Lemâitre

Sun sets in my kingdom
But it's been dark for a while now
I go back, back to sleep cause
In my dreams I've got the know how

Outside is burning
I've given up
But then I hear someone's calling
(Don't know what it is)
Down in the valley
Just around the corner
Getting closer and closer
Someone's calling me

Sparrow singing last rites
I never heard a sound like that
An echo in the silence, silence
Saying you can stand, you can stand up
Sparrow singing last rites
I never heard a sound like that
An echo in the silence, silence
Saying you can stand, you can stand up
(You can stand, you can stand up)
(You can stand, you can stand up)

It's my time to be brave I
Didn't know I had it in me
I got something to save now
So I follow the voices

Outside is burning
I'd given up
But then I hear someone's calling
(Don't know what it is)
Down in the valley
Just around the corner
Getting closer and closer
Someone's calling me

Sparrow singing last rites
I never heard a sound like that
An echo in the silence, silence
Saying you can stand, you can stand up
Sparrow singing last rites
I never heard a sound like that
An echo in the silence, silence
Saying you can stand, you can stand up
(You can stand, you can stand up)
(You can stand, you can stand up)
(You can stand, you can stand up)
