

# Stop Me Fast

Lemâitre

You know this time  
This is gonna last  
You gotta stop me if I go too fast  
You see I got no time left to spare  
No time to wait for you to think about it

Stop me if I'm going too fast  
We can see the future through the past  
Not so fast  
I'm the last motherfucker standing  
You gotta stop me fast

If this is gonna last  
You gotta stop me fast  
If this is gonna last you know  
You gotta stop me fast

You thought that maybe I was being rude  
You thought that I was trying to be smooth  
Just wanna go while we still got our youth  
No time to wait for you to  
Think about it

Stop me if I'm going too fast  
We can see the future through the past  
Not so fast  
I'm the last motherfucker standing  
You gotta stop me fast

If this is gonna last  
You gotta stop me fast  
If this is gonna last you know  
You gotta stop me fast
