Lemâitre

Techno Sapien  
Techno Sapien

Won't ask for much  
A little charge  
I'm up again  
Back in the game

No bad days  
No headaches  
No heartbreaks  
Just press next  
Best

So now I feel  
All alone  
You know I feel  
All alone  
Don't wanna feel  
All alone  
Oh I just feel  
All alone  
Now I feel  
All alone  
You know I feel  
All alone  
Don't wanna feel  
All alone  
Oh I just feel  
All alone  
I'm feeling

Techno Sapien

Techno Sapien

No second guess  
No distress  
Stuck on the fence  
No consequence

No second best  
I Want no less  
No school  
No books  
No real regrets  
For me

No appetite  
No wrong no right  
New politics  
New face new fix

No sugar rush  
No human touch  
No salt no spice

I don't feel much

So now I feel  
All alone  
You know I feel  
All alone  
Don't wanna feel  
All alone  
Oh I just feel  
All alone  
Now I feel  
All alone  
You know I feel  
All alone  
Don't wanna feel  
All alone  
Oh I just feel  
All alone  
I'm feeling

I think I used to be fun  
Didn't pick up the phone when you were gone  
Made a house out of cardboards  
With some paint on  
I knew the roads in the city and my address too  
I knew all numbers in my head  
And the birthdate of my boo

So now I feel  
All alone  
You know I feel  
All alone  
Don't wanna feel  
All alone  
Oh I just feel  
All alone  
Now I feel  
All alone  
You know I feel  
All alone  
Don't wanna feel  
All alone  
Oh I just feel  
All alone  
I'm feeling
