

# Don't Run Away

Lemar

Little so if she go you change the picture of your own face  
Searching for my love you're after much you're looking in the wrong place

And your crowded room still feels like nobody is even at home  
As the seconds turn to hours, lonely just won't leave you alone

So let it go now  
Find time to shine

Don't run away  
Life is just a passing thing  
And we sail away  
Take her to an angel's place  
No, you can't wish away the night  
Don't you know it's a waste of time?  
Don't run away  
Don't run away  
Don't run away

Little girl don't realize how beautiful you are with this  
So you need to get yourself just to feel safe inside your own skin  
How can you have everything but still feel like there's nothing you own?  
When the party's over somehow lonely just won't leave you alone

Don't run away  
Life is just a passing thing  
And we sail away  
Take her to an angel's place  
No, you can't wish away the night  
Don't you know it's a waste of time?  
Don't run away  
Don't run away

Yea yea yea  
Oh oh oh  
Oh oh oh

No, you can't wish away the night  
Don't you know it's a waste of time?

Don't run away  
Life is just a passing thing  
(Don't let life pass you by)  
And we sail away  
Take her to an angel's place  
No, you can't wish away the night  
Don't you know it's a waste of time?  
Don't run away  
Don't run away
