

# Future Love

Lemar

We been hanging round each other now for quite some time  
And deep inside I wanna take this to another level  
Stars are out tonight  
The light reflects a glow upon your face  
A perfect picture  
My whole life I ain't seen better

Let me work it through the night  
Switch it left, do you right  
Put in overtime for you babe  
I just wanna love you down  
Turn you inside out  
Do it just how you like it, babe

Woah, oh mama  
You got what it takes to be my future lover  
Hey, hey papa  
You got what it takes to be my future love

Ain't no precious time for wasting, hesitating  
It's the moment I've been waiting for forever  
Got to get you closer  
Feel my body on your body  
Face to face  
Cheek to cheek  
We keep it rockin', ain't no stopping on this beat

Let me work it through the night  
Switch it left, do you right  
Put in overtime for you babe  
I just wanna love you down  
Turn you inside out  
Do it just how you like it babe

Woah, oh mama  
You got what it takes to be my future lover  
Hey, hey papa  
You got what it takes to be my future love  
Woah (Everybody sing), oh!  
(Be my future love)  
Hey (Yeah yeah yeah yeah), hey!  
(Future love!)

And I can't  
I can't ever seem to get enough  
I'm addicted to the groove and your sexy touch  
And I can't  
I can't ever seem to get enough  
I'm addicted to the groove and your sexy touch  
And I can't  
I can't ever seem to get enough  
I'm addicted to the groove and your sexy touch  
And I can't  
Can't ever seem to get enough  
I'm addicted to the groove, I need your love

Future love

I need your loving  
Future love  
Everybody sing now

Woah, oh mama  
You got what it takes to be my future lover  
Hey, hey papa  
You got what it takes to be my future love  
Woah (Everybody sing), oh!  
(Be my future love)  
Hey (Yeah yeah yeah yeah), hey!  
(Future love!)
