Just Can't Live Without Each Other Love

Lemar

I'm not scared of you leaving
I'm not scared of you at all
And i give you this freedom
With no i told you so's if you fail
I'm making it easy
If you promise that it's understood
If i take you back
You're coming back for good
Cos i want that just can't live
Without each other love

I don't want your forgive me's
Don't need your sorry i forgot's
And if i have you here with me
Don't need you to be
something that you're not
I'm making it easy
If you promise that it's understood
If i take you back
You're coming back for good
Cos i want that just can't live
Without each other love

Something inside of me
Tells me you still believe
We've got that just can't live
Without each other love

It's all consuming, intoxicating
That old fashioned stuff
One ingredient missing
It just ain't, it just ain't, it just ain't enough

My eyes are wide open
They're not blinded by us
Cos i need that just can't live without each other love

We've got that just can't live without each other love
I've got that just can't seem to live without your love
