

More Than Music

Lemar

More than music
More than music

Music is the sweetest thing
It has always end, always be my everything, never lets me down
Forgives me even if I send always there for me
You never ask me where I've been
He's been coming back
It can it finds a melody
But for reason in it, I can feel the change in me, yeah
That you always stand by me
Could it be, could it be
That you gave your whole and all to me,
I thought I confess I love you

More than music
More than music

Music taught me how to swim,
To the deepest and the darkest places I have been
It pull me through
Even let my heart to you
And when I almost left it show me just what I would do
Music makes me moving
Always gets me in the mood
And for some reason in it
I would rather be with you, yeah (could it be?)
'cause you treat me like a king (could it be, could it be?)
that you always let me do my thing
I gotta confess I love you more

More than music, more than music
