

Never Be Another You

Lemar

I see you walk but fall from grace
I see you run and hide away
And when you think you can escape
Oh, I will show you another way

I will pick you up when you're down and out
When you feel there's no one else in this world
Tonight, know that I will be by your side
Cause every time I think of you
I just can't believe it's true
That's how I know there'll never be another you

And when the crowds have all gone home
When you're sat there on your own
Oh, I hope that you will always know
I wouldn't dream of letting you go

I will pick you up when you're down and out
When you feel there's no one else in this world
Tonight, know that I will be by your side
Cause every time I look at you
You're just too good to lose
And somehow I know there'll never be another you

Another you, another you
That's how I know this much is true babe

I will pick you up when you're down and out
When you think there's no one else in this world
Tonight, know that I will be by your side
Cause every time I look at you
I just don't believe it's true
That's how I know there'll never be another you
Somehow I know there'll never be another you
