

Starlight

The very first time I saw you
I knew that I had to get down, down, down, uh
I wanna make tonight that night baby
Won't you come around, yeah

I got the candles lit
Rose petals and red wine in place, ah-ah
I want you straight no chaser baby
It's your lips I want to taste, well, hah
I wanna [?]

Ooh, ooh, baby right there
Don't stop, do it again
Ooh, ooh, go ahead talk to me girl
Yeah, yeah, ooh, right there
Oh baby, do it again
I'll do whatever you like

'Cause baby you're my starlight
Ain't seen a light a shine brighter girl
Put my queen on top of the world
Let me serve ya
Baby you're my starlight
Feel your love from outer space
Ain't gonna let it drop all to waste
I just wanna take it and make it
Rain, let it rain, let it rain
Let it rain on me

I promise I'm gonna make tonight
A night you won't forget, you won't forget
I got that good love, baby
Gonna make it last until you sweat
I wanna hear ya baby, talk to me now

Ooh, ooh, baby right there
Don't stop, do it again
Yeah, a little louder, hah, sing to me now
Yeah, yeah, ooh, right there
Oh baby, do it again
Yeah, I'll do whatever you like

'Cause baby you're my starlight
Ain't seen a light a shine brighter girl
Put my queen on top of the world
Let me serve ya
Baby you're my starlight
Feel your love from outer space
Ain't gonna let it drop all to waste
I just wanna take it and make it
Rain, let it rain, let it rain
Let it rain on me
Yeah, yeah, yeah, yeah, yeah

Tonight's the night, tonight's the night

Tonight's the night, tonight's the...
I wanna... yeah
Tonight's the night, tonight's the night
Tonight's the night, tonight's the...
Ah, make you feel like a woman should

Baby you're my starlight
Ain't seen a light a shine brighter girl
Put my queen on top of the world
Let me serve ya
Baby you're my starlight
Feel your love from outer space
Ain't gonna let it drop all to waste
I just wanna take it and make it
Rain, let it rain, let it rain
Let it rain on me
Ooh, all over me
