

# The One Who Saves You

Lemar

I will be the one who saves you

When your time is done  
When they all up and run away  
When the lights fade down  
And all the hangers on are gone  
In your darkest hour  
When the walls come crashing down around you  
When you lose your faith  
Or that mountain won't be moved

I will be  
Swear I'll be  
I will be  
The one who saves you

I will be the one who saves you

When you're hurt and bad baby  
When you've lost the only thing you had  
When the cut runs deep  
And you've played out the final scene  
See your heart in pieces  
See the strength in all of your weakness  
See the tears roll down your face  
See me by your side

I will be  
Swear I'll be  
I will be  
The one who saves you  
Oh oh oh

I will reach my hand out to you  
Save the best to last just for you  
Gonna reach my hand out to you

I will be  
Swear I'll be  
I will be  
The one who saves you
