

Man-Made Object

Lemon Demon

I want to meet potential architects all night
I want to purchase urban real estate all night
I want to study local zoning laws all night
I want to calculate construction costs all night

I have a vision of a man-made object
I have the money, I have the means
I have the strangest dreams

I caught insomnia from looking at the moon
I found a picture of a rectangle I drew
I am an altogether different man by day
I have the influence to send that man far away

I have a vision of a man-made object (Towering over all)
I have a vision of a man-made object (Towering over all)
I have a vision of a man-made object (Towering over all)
I have a vision of a man-made object (Towering over all)

I have the money, I have the means
I've been having the strangest dreams, baby
