

# The Ocean

Lemon Demon

Set sail  
For I am like the whale  
I'm on a different frequency  
Salt water's my cup of tea  
Literally

Look around  
Adventure can be found  
Dolphins abound and say hello  
They'll show me which way to go  
I know

There is no horizon  
I cannot set my eyes on  
The ocean, the ocean

I feel a storm approachin'  
Like seagulls in slow-motion  
Me and my mermaid girlfriend  
Ballroom dance on a wave in the ocean  
But keep in careful mind  
'Cause you will always find  
Endless danger to brave on the ocean  
But that's just the way the ocean is

Show no fear  
For on this strange frontier  
Monsters can smell the fear in you  
That's how they know just who to  
Pursue

We may (just slightly)  
Just slightly lose our way (lose our way)  
But trust me with navigations  
I know the constellations  
... well some

There is no horizon  
I cannot set my eyes on  
The ocean, the ocean

I feel a storm approachin'  
Like seagulls in slow-motion  
Me and my mermaid girlfriend  
Ballroom dance on a wave in the ocean  
La la la la la la la the ocean

Oh yes we ballroom dance on a wave in the ocean  
And you can't stop our love  
Yes we ballroom dance on a wave in the ocean  
And you can't stop our love  
In fact we ballroom dance on a wave in the ocean  
And you can't stop our love

Ballroom dance to the rhythm of the tide  
Now my body's on land but my heart will reside  
In the only place I've ever felt pacified

Or atlanticized, as it were  
I refer to the ocean

(Ocean...)
