

Touch-Tone Telephone

Lemon Demon

I think it's time
For you to know
The awful truth
The truth about me, and the truth about you
Cause you're a brand new species
Big cat
Space Nazis
Robert Stack
God damn it, gonna snap
Leonard Nimoy,
Call me back (Call me back)

I try to call you every day
I'm rehearsing what to say
When the truth comes out (Of my very own mouth)
I've been working on a unified theory
If I make it through tonight, everybody's gonna hear me out
Cause I'm the right one
On my touch-tone, touch-tone telephone
I'm the only one
On your A.M., A.M. radio

Oh, I'm crying now
Authentic tears
They flow out of me when I think about you
Cause you're the only person in the world who'd understand
Cause you're the only person in the world who'd understand the meaning of th
is
Oh My God
I try, and I try, and I try to make you listen to me

I try to call you every day
I'm rehearsing what to say
When the truth comes out (Of my very own mouth)
I've been working on a unified theory
If I make it through tonight, everybody's gonna hear me out
Cause I'm the right one
On my touch-tone, touch-tone telephone
I'm the only one, hey!
On your A.M., A.M. radio

Don't hang up yet, I'm not done
I'm an expert, I'm the one
The one who was right all along
Better to be laughed at than wrong
I'm an expert in my field
UFOlogy, yes, it's all real
Ancient aliens, it's all true
I'm an expert just like you
And like you, I'm a genius before my time
Disbelieving, that's the real crime
Pretty soon they'll discover me in the Super-Sargasso Sea

I try to call you every day
What can I say
When the truth comes out? (Of my very own mouth)
I've been working on a unified theory

If I make it through tonight, everybody's gonna hear me out (Now, now, now)
Cause I'm the right one
On my touch-tone, touch-tone telephone
I'm the only one
On your A.M., A.M. radio
