

# Blind

Lemon

I choose control  
I am confident  
I want to grow  
I want to grow stronger

Unpack your faith  
Your power to comprehend  
It's clear  
It's always been here

Yeah, I can make it right  
This trenght I have found  
Yeay, my aim is skintight  
I must have been blind before

I don't make belief  
I will not pretend  
I am complete  
I am to be whole again

I'll leave no trace  
I'm leaving this sorrow  
Behind  
Whatever comes round

Yeah, I can make it right  
This strength I have found  
Yeah, my aim is skintight  
I must have been blind

I've been a mess  
I just have to confess it  
You were more then right

It's been a hell, girl  
Sure, now I can tell you must  
Have no fear

I'm not feeling sad  
Well, is this were it's at?  
Now we're a mess

Yeah, I can make it right  
This strenght I have found  
Yeah, my aim is skintight  
I must have been blind  
Yeah, I can make it right
